

2013

Our report to the community

At Putnam Community Medical Center,

our goal is to continually evaluate and enhance quality in a manner that distinguishes us from our peers. In today's healthcare delivery environment, as the industry continues to move toward a "pay for performance" model, this priority becomes even more important. Quality improvements and service development initiatives make a very positive impact on our community, friends and neighbors. Delivering quality healthcare close to home is the single most important contribution we make.

Partnering with our dedicated physicians, employees, volunteers and board members, we will continue to honor our commitment to "make our communities healthier." Here are a few of the other ways that we enrich those communities we serve.

Nearly \$2 million in capital improvements

In 2013, PCMC invested \$1,966,134 in our facility last year which included an investment in our state-of-the-art electronic medical record (EMR) system to ensure easy transformation of medical information. We have also invested in surgical equipment to ensure delivery of orthopaedic surgery.

Contributing to our local tax base

Last year, PCMC paid \$503,524 in taxes which helped support our city, county and state. This included sales taxes as well as property taxes. These dollars help maintain local schools, fund the

development of roads, recruit business and industry, and provide other similar services vital to support and sustain a thriving economy.

Helping those in need

PCMC is committed to ensuring the delivery of needed healthcare to all members of the community, regardless of ability to pay. Last year, the cost to PCMC was more than \$7.1 million to provide services for those without the ability to pay for their care.

Adding new physicians

Putnam Community Medical Center strives to recruit new physicians to meet the demands of our patient population. In 2013, PCMC added a new orthopaedic surgeon, Michael J. Maggitti, MD, who joined the medical staff in February 2014.

One of our community's major employers

With an annual payroll of \$30,668,467 and an average of 506 employees, PCMC is one of the largest employers in the region. This means that our staff and family members attend many of the same schools, shop at the same stores and volunteer their time and resources for the same organizations as you do.

We thank you for choosing us for your healthcare needs. With your support, we can continue making our community healthier.
